

Industry supported laboratories

Research and Development Laboratory has been established through Plastech Engineering, in order to educate students on the varieties of manufacturing process using CNC machine by designing complex part program and also to motivate the students to utilize them in their projects.

The laboratory setup and run by during academic year 2018-2019, is shown in table

Table: Plastech Engineering Laboratory Details

| S.No | Name of Lab | Associated Industry | Machine Tool |
|-------------|-------------------------|-----------------------------|-----------------------|
| 1 | Advanced CNC Lab | Plastech Engineering | CNC Turning |
| 2 | CAD/CAM Lab | Plastech Engineering | Ansys Software |
