

BEST PRACTICE NO: I

1. Title of the Practice

Hour of Departmental Engagement for students

2. Objectives of the Practice

- Infuse understandable, accessible, and coherent work ethics into students' mental substratum
- To improve soft skills, stage presence, and presentation abilities among the students.
- To develop leadership and influential skills.
- To improve leadership and persuasion abilities in students.
- Instill organizational skills and collaborate with team members.

3. The Context

The most of the students come from various regions and backgrounds and different sectors of community, which instills sense of fear in them and leads to an inferiority mentality. As a result, persuading pupils to join in the frontline becomes difficult. As a result, the concept was born that there should be a platform for students, run by students, supported by alumnus of college with minimal teacher involvement. This has offered students the opportunity to organize and implement a variety of academic and extracurricular activities, extending the scope of student interaction and development. The much-needed platform was given to them by their initiatives to lead by example, not only for their batch mate but also for their juniors to roll up in the task and showcase what they are good at.

4. The Practice

For association activity hours involving students in their respective departments' second, third, and fourth years, a streamlined system has been established by senior students. The Alumni of college every semester will also come and give training as per industry requirement, groom them with their experiences and Each department is given one day each week, with the last two hours set off for event planning and conducting. The President, Vice President, General Secretary, Joint Secretary, Treasurer, and members of the Executive Body are all elected. As an advisor, a faculty member leads this group. At the start of each semester, the executive body develops the event calendar. Guest lectures, workshops, seminars, alumni talk, technical presentations, Just-a-minute (JAM), group discussions, debates, and other events are among the programmes on the schedule.

Presentation skills, interview skills, encouraging confidence on stage, increasing soft skills, and strengthening spontaneity are the major areas of focus for student growth. Some of the team-based development events that take place to strengthen leadership abilities include debates, group presentations, event management, participation in seminars, and feedback. With the overall growth and transformation of students in mind, the institute's intention to begin such a practice has been adopted, and it will continue to develop itself with greater synchronization to Higher Education Institutions in India.

5. Evidence of Success

Students who have steered numerous ideas and events for the organization have always been at the forefront of campus placements and self-development during association activity hour. The primary goal of the practice from its start has been to develop the communication skills of pupils from rural backgrounds and economically backward sectors. The alumni of the college help the Students who have been at the forefront of the organization have noticed a marked improvement in their self-assurance and work ethic. Other students who participate in daily activities have pushed the boundaries of curricular and co-curricular activities. This implementation has not only succeeded in its basic strategy, but it has also inspired and increased self-augmentation and maturity in student psychology to varying degrees. Students' basic barriers to technical education can be overcome.

6. Problems Encountered and Resources Required

We were required to construct an executive body from a big group of students in order to undertake Association Activity Hour. There was a need for meticulous planning and execution of weekly tasks. It has assessed the existence of leadership, unity, and progress in all events to streamline the activity.

Students have found that requiring self-participation and executing events on short notice has been thought-provoking and has helped them develop skills for future events. Scheduling, allocating space for events, dealing with training during university examinations, completion of the development programme syllabus, student attendance, and working synchronously are some of the organizational challenges addressed.

Dear Mohd Ata Ur Rahman,

Job Offer – Associate Application Test Engineer

I am pleased to offer you an appointment to the position of **Associate Application Test Engineer** with the Unisys located in Bangalore with Ref no: HR/UNISYS/14/2021. This training position is for a 1-year term beginning 05th July 2021. You will be on probation for 6 months and your continued participation in the training position will be dependent upon successful completion of courses and learning objectives as scheduled in the training plan. If you successfully complete the training program, you will be offered a permanent position as Associate Application Test Engineer.

Your starting salary will be **Rs: 40,000/- per month i.e. CTC of 4,80,000/- per annum**. Upon successful completion of courses and training objectives for each year as laid out in the training plan, and when verified by your trainer, your salary will be increased to 30% of the target position starting salary for the second year of training.

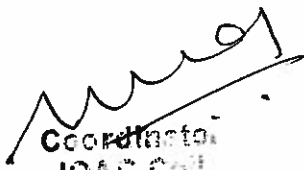

If you agree with the above conditions, please indicate your acceptance by signing a copy of this letter and returning it with in stipulated time.,

Congratulations on your appointment. Should you have any questions concerning this job offer, please contact HR Department.

Sincerely,

For Unisys
