NSAKCET is organizing a **“Live Interactive Session on World’s Most demanding Technology- Blockchain”** program by ETHUNUS CODEMITRA for B.Tech: CSE, IT & ECE Final year students.

Blockchain has been the talk of the professional world in recent days. Whenever there is a discussion on **what is the hot new area of growth, Blockchain invariably features** in the discussion. However, before you take the plunge and start learning there bound to be multiple questions in your mind like:

1. What are the skills needed to succeed with Blockchain?
2. Can someone from my background learn Blockchain?
3. What are the career growth opportunities available if I learn Blockchain?

Duration of the program: 2 Hours.

Date: 22nd August 2020

Training Timings will be at 7:00pm onwards.

Live Interactive session on World's Most demanding technology - BlockChain
8/21/20 2:28 PM

From: Aparna Bala <aparna.b@ethnus.com>

To: undisclosed-recipients;

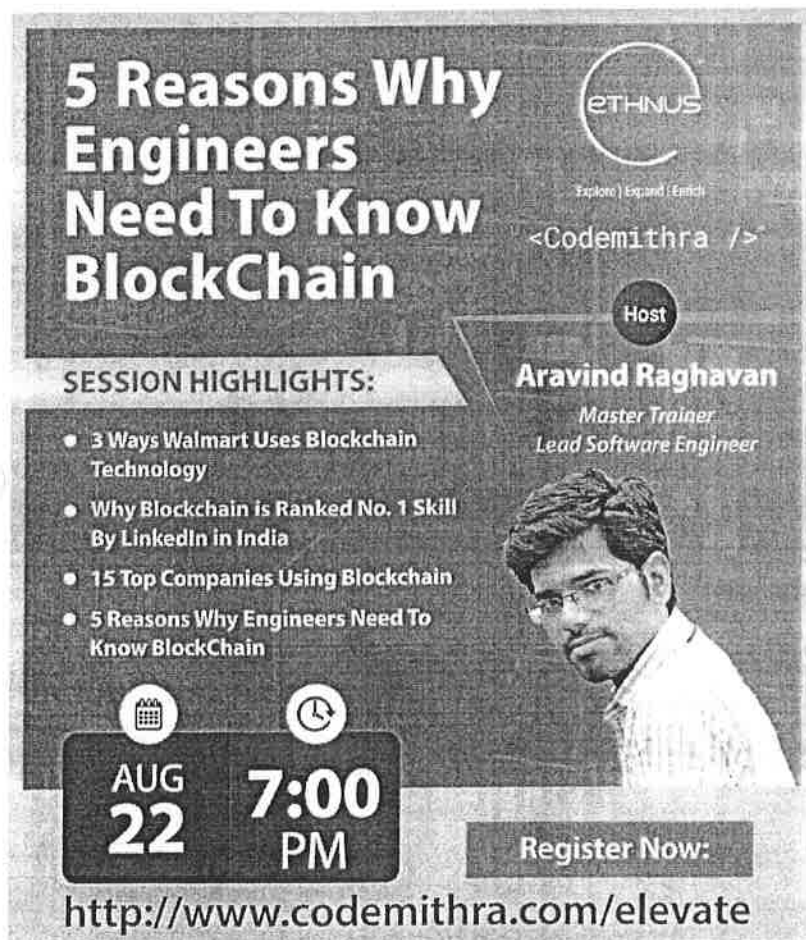

Dear Sir/Ma'am,

We hope this email finds you in good health.

Blockchain has been the talk of the professional world in recent days. Whenever there is a discussion on **what is the hot new area of growth, Blockchain invariably features** in the discussion. However, before you take the plunge and start learning **there bound to be multiple questions in your mind like:**

1. What are the skills needed to succeed with Blockchain?
2. Can someone from my background learn Blockchain?
3. What are the career growth opportunities available if I learn Blockchain?

And who better can answer these questions than someone who was in exactly your position.

The poster features a dark background with white and yellow text. At the top left, the title '5 Reasons Why Engineers Need To Know BlockChain' is prominently displayed. To the right of the title is the 'ETHNUS' logo, which includes the tagline 'Explore | Expand | Enrich'. Below the logo is the text '<Codemithra />'. The host's name, 'Aravind Raghavan', is listed with his titles 'Master Trainer' and 'Lead Software Engineer'. A list of session highlights includes '3 Ways Walmart Uses Blockchain Technology', 'Why Blockchain is Ranked No. 1 Skill By LinkedIn in India', '15 Top Companies Using Blockchain', and '5 Reasons Why Engineers Need To Know BlockChain'. A portrait of Aravind Raghavan is shown on the right side. At the bottom left, the date 'AUG 22' and time '7:00 PM' are indicated with calendar and clock icons. A 'Register Now' button is located at the bottom right, with the URL 'http://www.codemithra.com/elevate' below it.

A FREE session on "HOW TO TURN YOUR INTERNSHIP INTO A JOB OFFER?"

9/4/20 6:13 PM

From: Nupur Mohapatra <nupur@greatlearning.in>

To: placement@nsakcet.ac.in

Hello Sir

Hope you are doing well!

I am sharing a session that we have conducted on a current threat that has raised stress among the students due to the lockdown that is **getting a job offer in this hard time**.

Even though the job market appears uncertain, it is essential that the students have an optimistic outlook and keep actively looking out for opportunities.

This session will help the students to understand the need of the hour and now as many companies are only open to offer internships to the existing students as well as fresh graduates, how can they utilize this opportunity effectively.

Kindly share this email with all the students of the college across all the departments.

About the Speaker

Mr. Uttkarsh Sharma

Date: 10-09-2020

NSAKCET is organizing a **SKILL DEVELOPMENT PROGRAM** by **SKILL- LYNC** in the core area of the Mechanical, Electrical & Civil Departments for all B.Tech 2nd, 3rd & 4th year students.

Skill-Lync offer?

- 80+ Industry-relevant-based courses in the domain of Mechanical, Civil & Electrical Engineering to teach in-demand technical skill sets. Our courses help students understand current & future trends.
- 8 Master's program tracks that exponential increase the chance of employment and master's admit.
- A carefully curated curriculum in each course that is specifically designed for Skill-Lync by Global Industry Experts, that is in line with AICTE regulations.
- Placement Opportunities in Core Domain.

Duration of the program: Half Day.

Date: 17th September 2020

Session Timings: 10:00 am to 12:30 pm.

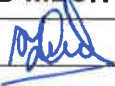

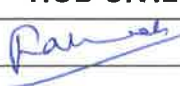

Venue will be Online.

Session Link will be shared to all the students.

About Skill-Lync

Skill-Lync **aims at bridging the gap between Academia and the Industry**. Our primary goal is to help instill employable skills and experience to the students. Skill-Lync is an e-learning platform that aims to revolutionize engineering education by bridging the skill gap between students and the Industry.

We have offices in 3 cities (Chennai, Bangalore and Hyderabad) and over 5000+ students spanning 58+countries.

What do Skill-Lync offer?

- 80+ Industry-relevant courses that are in-demand - helping students understand not just the current trends but getting them future-ready
- 12+ Master's program tracks that exponentially increase the chance of employment
- A carefully curated curriculum in each course that is specifically designed for Skill-Lync by Global Industry Experts

THE SKILL-LYNC ADVANTAGE

Industry Relevant Skills
Learn industry-relevant skills from technical experts

Job Leading Courses
All of our courses are mapped to specific job functions in the market

Project Based Learning
Work on projects, publish to your profile and get hired in top companies

Vested in your Success
In the past 12 months, we have placed 180+ students. Helped students get over USD 500,000 in scholarships

Dedicated Technical Support
Get access to highly-dedicated technical and customer support teams

Continual Learning
Once you are part of Skill-Lync, you can keep learning relevant skills through LIVE webinars and workshops

Our Partners:-

SKILL-LYNC

Professional Semester Assessment Program (Pro-SAP) (Training + Hands-on+ Project + Placement Assistance)

About Pro-SAP:-

- The Industry- Academia Gap makes Indian Engineers less employable at the end of their 4-year degree.
- PSAP, introduces project-based technical courses for students from Semester 1 to Semester 8.
 - ✓ With PSAP, you will work on 25x more projects than a typical undergraduate student
 - ✓ These projects are designed by Industry Experts.
 - ✓ You get to build a technical portfolio right from day 1 of college
 - ✓ PSAP is designed to help you achieve phenomenal results throughout your undergraduate education
 - ✓ PSAP is currently available for Mechanical, Aerospace and Automotive Engineering students

Semester Wise Module Details: -

Target Audience: - Semester I

Duration: - 3months (1-2 hrs/day)

Sl No.	Module Name
1	Advanced Excel
2	Python Programming for Mechanical Engineering
	• Concept based Challenges & Assignment • Performance Evaluation & Student's growth Tracker • Min. 2-3 Industry oriented project • Reward & Certification

Target Audience: - Semester II

Duration: - 3months (1-2 hrs/day)

Sl No.	Module Name
1	Essential C Programming for Mechanical
2	Application Based knowledge on Matlab & Simulink
	• Concept based Challenges & Assignment • Performance Evaluation & Student's growth Tracker • Min. 2-3 Industry oriented project • Reward & Certification

Semester III-VIII (Domain Specialization)

Domain	Option I-DESIGN	Option II- CFD	Option III-FEA Structural
Semester III	Solid & Surface Modelling using SolidWorks	CFD using ANSYS Fluent	FEA using ANSYS
Semester IV	Plastic Design for Automotive Components using NX CAD	CFD using Matlab & OpenFOAM	Explicit Dynamics using LS Dyna
Semester V	Sheet Metal Design & Automotive Body in White design using NX CAD or CATIA	Advanced CFD for IC Engine / Aerodynamics / HVAC / Turbo machinery using Converge CFD	Pre-Processing using Hypermesh
Semester VI	Mold Design using SolidWorks	Thermal Management of Battery-operated electronics using ANSYS	Crash worthiness Analysis using LS dyna & Radioss
Semester VII	Wiring Harness, Automotive Seating and Automotive Lighting Design using CATIA	Computational Combustion using Python & Cantera	Noise Vibration Harshness, Durability using Abaqus or Nastran
Semester VIII	Advanced GD&T	Finite Volume Method for CFD using C+	Advanced Post-processing using Python

Value Adds:

- Concept based Challenges & Assignment
- Performance Evaluation & Student's growth Tracker
- Min. 2-3 Industry oriented project with every module/each semester
- Reward & Certification with every module

Skill-Lync will be providing: -

- 1) Module Training
- 2) Skill-Lync will conduct pre-assessment test before start of each module.
- 3) Course Material for each Subject
- 4) Academic Project
- 5) Evaluation Process: -Each course is accompanied by challenges every week
- 6) Internship Certificates
- 7) Career Guidance- Student profile at www.skill-lync.com/profiles
- 8) Participation in Skill-Lync's Placement fair - as an added avenue to get employed apart from the college placement
- 9) Placement Assistance

Special offer: - 10% of the total batch will be offered direct placement @ Skill-Lync just after completion of Course

Just for Reference: we have shown Option I as an example to describe semester wise break with detailed course outline and the same will be implemented for another domain with their respective course module.

Option I- Design

Target Audience: - Semester III
Duration: - 3 months (~2-3 hrs/day)

Sl No.	Course Name: Solid & Surface Modelling using SolidWorks
1	Solid Modelling and surface modelling tools of the CAD software – SOLIDWORKS
2	Creating your own concept sketches
3	Introduction to solid Works and Mastering SOLID WORKS user Interface
4	Advanced Sketching and solid Modelling
5	Assembly Techniques
6	Rendering
7	Surface modelling
Project: - Min. 2-3 Industry oriented Project work	
Detailed Syllabus: - https://skill-lync.com/courses/ultimate-solidworks-course	

Target Audience: - Semester IV
Duration: - 3 months (~2-3 hrs/day)

Corse Name: Plastic Design for Automotive Components using CATIA V5			
1	Design overview in Automotive Industry	9	Creation Clip Locking and mounting feature & snap for the Trim Bezel
2	Plastic in Automotive Industry	10	2D drawing Creation
3	Introduction to CATIA	11	Tooling Feasibility
4	Sketcher workbench	12	Molding Exercise 1 & 2
5	Part Design work Bench	13	Plastic Defect
6	Advanced Part Design	14	Creation of IP Console Trim- Medium Complex Design
7	Creation of PCB Bracket using Boolean operations	15	Assembly workbench
8	Creation of the positioning and fixation features for Trim Bezel- Locator and Fixation Feature	16	Door Trim Design with Master Section

Support Model: Now since Online courses are coming into picture, every individual would have one question in common "How do I get my doubts clarified in Skill-Lync online courses?" We at Skill-Lync have a 4-way support mechanism.

As soon as a person / candidate gets access to a course, immediately a support engineer is assigned to the candidate. Now what next, during the course if the candidate gets stuck while solving the challenges / projects / have some doubt then.

1. **Phone Call / Email:** to the assigned support engineer.
2. **WhatsApp Group:** Put his query in the WhatsApp group created for that course.
3. **1-0-1 Video Call:** With the support engineer assigned.
 - a. Frequency - 3 times a week
4. **Group Video Call:** To know what queries other candidates are having.

CERTIFICATION:

- *Top 5% of the class will get a merit certificate*
- *Course completion certificates will be provided to all students*

Co-Branded Certificate of Skill- Lync & Institution

Project: - Min. 2-3 Industry oriented Project work

Detailed Syllabus: - <https://skill-lync.com/courses/plastic-design-catia-v5>

Target Audience: - Semester V

Duration: - 3 months (~2-3 hrs/day)

Course Name: Sheet Metal Design & Automotive Body in White design using NX CAD or CATIA

<u>Sheet Metal</u>	<u>Automotive Body in White design using NX CAD or CATIA</u>
1. Introduction to Sheet Metal	2. Basics of Automotive Body in white
3. Introduction to NX CAD Interface	4. Design Methodology of a Hood, Fender, Roof and Side Doors
5. Introduction to Sheet Metal Modelling Interface	6. Case Study-Converting- RUEKWANDTUER INNER PANEL
7. Conversion Wizards for Solid to Sheet Metals	8. Design of Key Mechanism- Lock and Striker
9. Stiffening Features in Sheet Metals	10. Process and Challenges with Supplier Manufactured Parts
11. Creation of Flattening and Forming	

Project: - Min. 2-3 Industry oriented Project work

Detailed Syllabus: - <https://skill-lync.com/courses/automotive-sheet-metal-design-nx-cad>

Detailed Syllabus: - <https://skill-lync.com/courses/automotive-biw-fixture-design>

Target Audience: - Semester VI

Duration: - 3 months (~2-3 hrs/day)

Course Name: Mold Design using SolidWorks

▪ Basics of Injection Molding / SOLIDWORKS Modelling	▪ Mold Design Tutorial 3- Part2
▪ Basics of Mold Design/ SOLIDWORKS surfacing	▪ Mold Design Tutorial 4- Part1
▪ DFM and Defects	▪ Mold Design Tutorial 4- Part2
▪ Parting Surface / Mold Design Tutorial 1	▪ Mold Design Tutorial 5- Part1
▪ Soliders and Ejection System/ Mold Design Tutorial 2	▪ Mold Design Tutorial 5- Part2
▪ Gates and Runners/ Mold Design Tutorial3-Part1	▪ Mold Design Tutorial 5- Part3

Project: - Min. 2-3 Industry oriented Project work

Target Audience: - Semester VII

Duration: - 3 months (~2-3 hrs/day)

Course Name: Wiring Harness, Automotive Seating and Automotive Lighting Design using CATIA	
<u>Wiring Harness</u>	<u>Automotive Lighting Design using CATIA V5</u>
▪ Introduction to CATIA V5 Electrical Workbench & Electrical Part Design	▪ Basic of Regulation & Start of Making Lamp
▪ Electrical Part Design	▪ Advance Level of Regulation with 3 D Model & Plastic Introduction
▪ Harness Assembly & Installation-Part 1, Part2 & Part3	▪ Basic Tooling Check & Drawing Making
▪ Wiring Harness Flattening	Detailed Syllabus: - https://skill-lync.com/courses/automotive-lighting-design-catia-v5
▪ Component Specifications & Selection Guide	
▪ Wiring Harness Routing & Packaging Basics	
Detailed Syllabus: - https://skill-lync.com/courses/wiring-harness-catia-v5	
Project: - Min. 2-3 Industry oriented Project work	

Target Audience: - Semester VIII

Duration: - 3 months (~2-3 hrs/day)

Course Name: Advanced GD&T (Geometric Dimensioning and Tolerancing using NX CAD	
1	Introduction to GD &T
2	Rules, Symbols, and Form Tolerances
3	Datums, Modifiers, Virtual Condition
4	Orientation Tolerance and Profile Tolerance
5	Position Tolerance
6	Co-axiality, Symmetricity, Run-outs
7	Understanding GD & T Drawing
Project: - Min. 2-3 Industry oriented Project work

Invitation to participate in Arka Webinar

2/15/21 6:31 PM

From: Namratha K B <namratha.coorg@gmail.com>

To: undisclosed-recipients;

Greetings,

I'm Namratha, a recent alumnus from Purdue University. I lead **Arka**, based in New York, a peer-to-peer mentor network of alumni like me, from the foremost universities in the US.

We have launched an **online Bootcamp** to help students in India with their grad school aspirations. It's a step-by-step guidance program on creating a winning application to the top-notch universities around the world, along with strategies on profile building, networking, and securing funding.

We would like to invite your students to attend our specially curated **webinar** that will detail our process. I'd greatly appreciate it if you could please share it with your students. Also, if you know of any students that we could help out, please do share their contact details in the form below, so that we can get in touch with them.

Click to register for the webinar.

I thank you for your time and am eagerly looking forward to hearing from you. Please don't hesitate to reach out to me via mail or WhatsApp for any more information.

To enroll in one of our exclusive packages **Register here.**

To enroll in one or many of our individual services **Register here**

You can also **schedule a free call** on our website!

Thank you,

Namratha

Dear Mahesh Sir

Good Morning!

Thank you for your response.

We shall hold the seminar at 11 am on 20th February and would share the link and the poster with you by today evening.
